

Northern Night Cup Round 4 Craig Leach- Wednesday 10th January 2018

Safety: This is a remote forest 300m above sea level. A whistle and spare torch are strongly recommended for all Northern Night Cup events, but to ignore these recommendations at Craig Leach would be particularly unwise.

Winter Weather: Due to the remote location at the top of a steep road, this event is especially vulnerable to cancellation in case of severe weather. A weather update will be issued 24 hours prior to the event, both by email to all those who have pre-entered and on the club website.

Planner's Comments: We are grateful to Dochfour Estate for permission to hold this event in the best part of Craig Leach. This is an area of mature, well-spaced pine forest with a beautiful wild feel about it. Optimal route choices will cross very little felling or windblow. Underfoot the going is mostly good, giving many sections of faster running.

Typical Craig Leach Terrain

Example of mapped path becoming overgrown

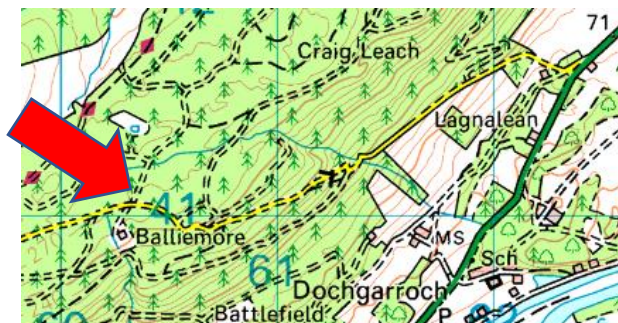

Map: Scale 1:7500, 5m contour interval. Minor updates by Johannes Petersen November 2017. Only the most prominent rides and recent extraction lanes are mapped. There are many other faint rides and older overgrown extraction lanes which are not mapped. In addition, some of the main paths are becoming overgrown.

Directions: Drive out of Inverness on the A82 headed for Fort William. Approximately 3km after leaving town, take the right turn signed Blackfold & Abriachan. Follow this road steeply uphill for 2.5km until you see the event signage.

Parking: Grid Ref NH603410. We expect parking to be tricky at this event so please share transport. For example you could arrange to meet at Inverness Leisure and consolidate transport from there. Winter tyres (for the steep uphill) and vehicles with greater clearance (for the bumpy parking track) will be helpful. There will be a mix of parking at the roadside and on the forestry track. You will be met by a parking marshal who will give you precise instructions.
